EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gero G. McClelland on 2/12/07.

The application has been amended as follows:

In the specification, adding the following paragraphs after paragraph [0022],

---Fig. 7 illustrates an exemplary temperature controlled voltage generator in accordance with another embodiment of the present invention.

Fig. 8 illustrates an exemplary temperature controlled voltage generator in accordance with yet another embodiment of the present invention. ---

Claim 11, line 8, the phrase ---, wherein the temperature information is written to a mode register of the memory device by an external device--- has been inserted after "increases".

Claim 25, line 4, the phrase ---mode register--- has been inserted before "means".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2827

2. The following is an examiner's statement of reasons for allowance:

The patentability of the present invention recited in claims 1, 3 and 5-10 is the feature "varying a level of one or more internally generated voltages, based on the temperature information reading one or more bits in a mode register, comprising decreasing the level of the one or more internally generated voltages as device temperature increases".

The patentability of the present invention recited in claims 11 and 13-20 is the feature "wherein the temperature information is written to a mode register of the memory device by an external device".

The patentability of the present invention recited in claims 25-26 and 28-30 is the feature "mode register means for supplying temperature information indicative of a temperature of the memory device".

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRONG PHAN whose telephone number is (571) 272-1794. The examiner can normally be reached on M-F (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, AMIR ZARABIAN can be reached on (571)272-1852. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR.
